

# Gestures

Gestures are different finger movements you'll use on any touchscreen device. You'll use your fingers to tell your device what to do.

# Gestures

1

## Tap on the screen

- Open the calculator app by looking for it on your home screen or in the app launcher. The app launcher shows you all the apps you have on your device. Touch the calculator app icon to open the app.
- Touch the screen with the tip of your finger. This is called **tapping**.
- Do a simple calculation to practice your tapping. For example, you could do **2 + 2** or **5 + 5**.

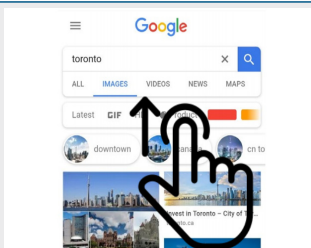

2

## "Pinch" and "Spread"

- Open the Chrome app by looking for it on your homescreen. Go to **Google.ca**. If you've never used Chrome before, do [this lesson](#) first.
- Touch the device with two fingers. Then, drag your fingers farther apart to **zoom in**.
- Touch the device with two fingers. Then, drag your fingers closer together to **zoom out**.
- Zoom in and out on the Google homepage

3

## "Drag"

- On **Google.ca** tap **Images**
- Tap in the search box. Then, type **Toronto** and tap the search button.
- Now, touch the screen and slide your finger up and down to see all the pictures

4

## "Swipe"

- Tap on a picture to make it bigger
- Drag your finger from **right to left** to see the next picture
- Drag your finger from **left to right** to see the previous picture
