

Google Maps

Google Maps is an online maps app. You can search for any place you want to go. Google Maps will show you how to get there.

Google Maps

1

Find the Google Maps app

- Find the Google Maps app. You can look for it on your device's home screen or in the app launcher. The app launcher shows you all the apps you have on your device.
- Tap on the **Google Maps** app to open it
- If Google Maps isn't installed on your device, open the Play Store. You can search for **Google Maps** and download the app. If you've never downloaded apps before, do [this lesson](#) first.

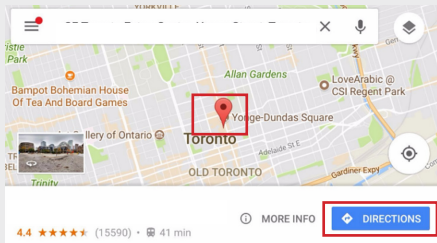

2

Search for a location

- Google Maps can help you find places like:
 - A grocery store
 - A restaurant
 - A clinic
 - A friend's house
- Tap on the search bar. Type in **nearest Tim Horton's** and tap the search button .

3

Search for directions

- The red pin shows the location you searched for
- Tap the **Directions**  button to find out how to get there

4

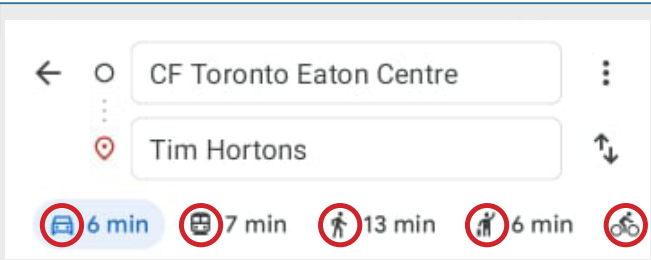

Choose a starting point

- Some devices can tell you exactly where you are so you don't get lost
- You can also add your starting point by typing in the address of where you are right now

Google Maps

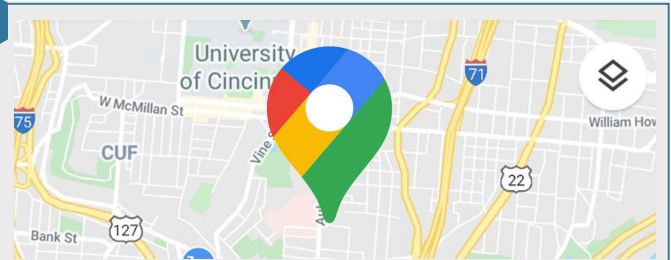

5

Look at the directions

- Look at the different ways to get where you want to go, at the top of your screen:
 - Car
 - Bus
 - Walk
 - Taxi or ride share
 - Bike
- Now, look at the map and the directions

6

Practice

- Now search for directions from your current location to:
 - The nearest walk-in clinic
 - The nearest grocery store
 - The nearest post office
