Photos

1

Find the Photos app

- Find the Photos app. You can look for it on your device's home screen or in the app launcher. The app launcher shows you all the apps you have on your device.
- Tap on the **Photos** app to open it. This icon will look different on some devices.

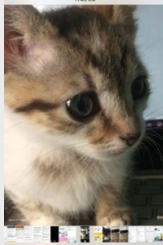

2

View the gallery

- This app will show you any pictures or videos you have on your device
- Scroll through the gallery and look at the pictures
- Tap on one of the pictures to view it in **full-screen**

3

Open a picture

- **Zoom in** and **zoom out** of the picture. You can do this by pinching and spreading your fingers on the screen.
- Zoom in on a picture. Then, **swipe** in different directions to see different parts of the image.
- If you're new to gestures like swiping, do [this lesson](#) first

4

Delete a picture

- You can **delete** a picture. Deleting a picture removes it from your device.
- Take a photo with your device. If you've never used your device's camera before, do [this lesson](#) first.
- Open the Photos app. Then open the photo you want to delete and tap the **trash can** icon at the bottom right corner of your screen.
- You can also tap and hold on a photo to see the trash can icon and delete the photo
