

# Safari

An internet browser, such as Safari, is what you'll use to access the internet and visit different websites

# Safari

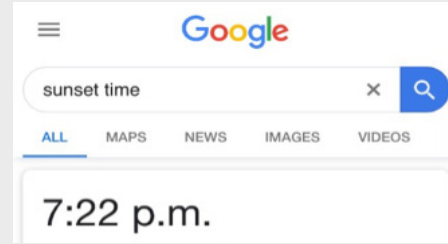

1

## Find the Safari app

- Find the Safari app. You can look for it on your device's home screen.
- Tap on the **Safari** app to open it
- You can use the Safari app to search the internet

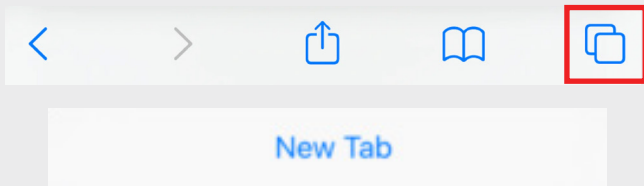

2

## Search the internet using Google

- Tap the address bar at the top of the page. Then, type **google.ca**.
- You can search for almost anything
- Type **sunset time** in the search bar. Then tap the **search** button.
- Read out what time the sun will set today

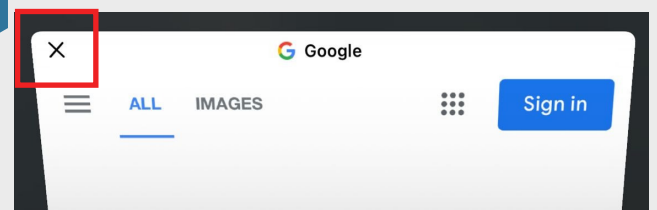

3

## Add a tab

- A tab is one webpage you're on. You can have lots of tabs opened at once.
- To add another tab, tap the **tabs** icon at the bottom of the screen.
- Then tap **New Tab**

4

## Manage tabs

- To switch between tabs, tap the **tabs** icon and tap on another tab
- To delete a tab, tap the **X** at the top left corner of each tab

# Safari

5

## Go back and forward

- The back and forward buttons are the 2 arrows at the bottom left of your screen
- Go **back** to the Google homepage by tapping the arrow that is pointing to the left. Then, go **forward** to the page that shows the sunset time by tapping the arrow that points to the right.

6

## Practice

- Add 5 new tabs
- In each tab, search for something new. For example:
  - What time is it in India
  - Weather in Hawaii
  - Dumpling recipe
  - How old is Canada
  - Where is the nearest Tim Horton's
- Delete all of the tabs
